LEUPHANA AI HACKATHON 2026 · PITCH CHECKLIST

OPEN TRACK

6 MIN
PITCH INCL. LIVE DEMO

3 MIN
JURY QUESTIONS

4 × 1–5
CRITERIA, EQUALLY WEIGHTED

Think of it as a classic startup pitch, but this is not a template: structure, order, slides and style are yours. The list shows what a pitch should contain so that the jury can rate it. You will not fit everything into 6 minutes, so decide what matters most for your idea.

1 PROBLEM & BUSINESS POTENTIAL

- [ ] A specific person or role with a real problem, not everyone
- [ ] The size or cost of the problem, with one number or quote
- [ ] Who pays, for what, and how money is earned, in one line
- [ ] The size of the market and what people use today instead
- [ ] What was learned from real users: talks, tests, sign-ups
- [ ] What is needed next, for example users, partners, money or mentoring

2 AI & TECHNICAL EXECUTION

- [ ] A working core function shown live (slides alone are not a prototype)
- [ ] Where AI is used, why, and with which tools and models
- [ ] What was tested, where it works and where it still fails
- [ ] What was built during the hackathon and what existed before

3 INNOVATION & CREATIVITY

- [ ] What is new compared with what exists today
- [ ] Why this is hard for others to copy
- [ ] Special prize, if you go for it: what is technically new in the core component, and could it be protected?

4 PITCH & COMMUNICATION

- [ ] An opening with the problem or a person, not with the team
- [ ] One clear main message the jury can repeat afterwards
- [ ] Clear roles: who speaks, who clicks, who runs the demo
- [ ] A rehearsal with a stopwatch, within 6 minutes
- [ ] A closing with a clear ask and a way to reach you

BEFORE YOU PITCH

- [ ] Pitch presentation uploaded to the Upload folder, file named after the team ID, for example OT07 or CT03: https://s.academiccloud.de/d2X6HJ
- [ ] A copy of the deck on a USB stick or in your own cloud, and a backup video of the demo
- [ ] An adapter if the laptop has neither HDMI nor USB-C, and the demo tested on the venue WiFi
